Erratum to: Eur J Futures Res (2015) 3:17

Due to technical problems during correction of the paper some minor errors occurred:

On page 2 of 6, in chapter “The basics of thoughts concerning the future” in two logical expressions there is a logical AND “ \wedge ” resp. a logical OR “ \vee ” missing.

Instead of “ $(\forall x \neg (x \neg x))$ ” it should read “ $(\forall x \neg (x \wedge \neg x))$ ” and instead of “ $(\forall x (x \neg x))$ ” it should read “ $(\forall x (x \vee \neg x))$ ”. These mistakes are in the PDF only

In the abstract several hyphenations can be found which are not correct in these places, i.e. logi-cal (row 2 in the PDF), unam-biguous (row 13 in the PDF) and Re-garding (row 15 in the PDF).

There is also another mistake (row 15 of the PDF) of the abstract: “internalsim” should of course be “internalism”.

These mistakes showed up in the HTML-version as well.
